

Is Your Club Run By Volunteers?

Members of Clubs SA are now entitled to a free Volunteer Club OH&S Manual**, thanks to funding support from Employers Mutual. This Manual is easy to use and will assist volunteer Clubs to comply with OH&S legislation whilst providing a safe environment for volunteers, members and guests.

Clubs would normally expect to pay hundreds of dollars or spend many hours producing a Manual of this nature – it's free with membership of Clubs SA.

Does Your Club Have Paid Employees?

With the introduction of the new Industrial Relations System and Modern Awards, Industrial Relations (IR) has become a mine field for Clubs. Clubs SA has appointed an IR advisor to assist members with understanding the new requirements, explain the options available and determine how to pay staff correctly.

Industrial Relations is one of the most important facets of operating a Club with paid employees – if not undertaken correctly the Club could risk legal implications and penalties. Join Clubs SA for free access to an IR specialist.
