

Best Club Refurbishment Award

And the winner is...

Chiton Rocks Surf Life Saving Club

Established in 1957 the Chiton Rocks Surf Life Saving Club has been providing volunteer life saving services for their community on weekends and public holidays for 5 months each year. The facilities of the Club commenced as a simple shed and has developed over the years to what has been in place for the last 35 years.

Aside from the structural and operational benefits of their over \$3 million project, the external benefits like a 50% increase in membership will hold the Club in excellent stead for the future.

The finished result is a bigger, brighter, more efficient and user friendly building, providing the integral support the Club needed, ensuring its continued service to the community.

A very big congratulations to the Chiton Rocks Surf Life Saving Club, we wish you well in your new dwelling.
