

**CLUBS FOR COMMUNITIES**

Proudly supported by Clubs SA

## **CRITERIA FOR IGC COMMUNITY GRANT FUNDING**

The Independent Gaming Corporation Ltd (IGC) is a not-for-profit company which provides a centralised monitoring facility for the management of gaming machines in South Australia. IGC makes grants to worthy community projects. Clubs SA through 'Clubs for Communities' facilitates the community grants program by identifying and liaising with applicants and making recommendations to IGC's board. All funding is provided by IGC and is ultimately derived from monitoring fees paid by operators of licensed venues in South Australia.

**Projects must be accessible to people from across the State.**

- One application per organisation will be considered in any twelve-month period.
- Organisations seeking assistance should identify a specific project to which "*Clubs for Communities*" can provide assistance in the application process.
- Projects can be a "once off", or over a longer term.
- Projects should reflect a high standard of integrity and identify the specific area of the community who will most benefit from assistance.
- Projects must be undertaken as a "joint venture", utilising the existing infrastructure of the fundraising organisation to coordinate and promote the funding of the project and funding with Clubs SA.
- Preference will be given to causes that:
  - can demonstrate assistance to those sectors in the community that are in some manner 'disadvantaged'. For example, priority will be given to projects that support children, young people, physically and/or intellectually disadvantaged people, health-related programs, and community-based projects by not for profit organisations.
  - require funding of up to \$10,000.
  - benefit a charity or community organisation directly, without going through an intermediary.
- Applications for support must be in writing to Clubs SA. Applications must provide details of involvement and available infrastructure to promote and secure recognition.
- For capital expenditure projects, two independent quotes must be included in the application. Preference given to local suppliers of goods and services will be highly regarded, however consideration will also be given to competitive pricing. If local suppliers are not proposed to be used, please provide an explanation why.
- Where applicable, GST must be included in the total value of the funding sought.
